

TEACHER

Methods Survey

Customize Training Programs & Target Improvement Strategies!

The essence of a school lies in its teachers and their ability to put effective methods into action. The CIALE Methods Survey is a powerful tool that provides insights into strengths and challenges related to the implementation of educational best practices.

With 72 research-validated and practice-based questions, the CIALE Methods Survey **helps you customize training programs and target improvement strategies** that will make a meaningful impact on student learning.

Philosophy

When teachers are able to provide the "voice" in identifying their current practice and improvement needs, the result is a higher level of engagement in professional development.

Critical Elements

- Self-reporting (this is not an evaluation tool)
- Curriculum engagement
- Instructional strategies
- Assessment authenticity
- Learning environment
- School-wide & divisional data collected

Logistics & Pricing

- Conducted online via a secure link
- Results and consultation available within three weeks of the close of the survey
- \$600 (school-wide and divisional reports);
Individual responses may be printed by participant
