ACCURACY RATE

Schools report the performance of our results match family financial need.

We are Christ-focused and care about your school and families. While we do not offer financial counsel to families, we do offer suggestions for biblical accountability, and often have opportunity to pray with parents and encourage them in the LORD. Times are tough for schools and parents, and while we are hired by schools, we serve everyone with the aim of glorifying God. We also provide practical resources throughout the year to our schools specifically geared to helping them operate efficiently and effectively.

CFS honors the value of the personal relationship you have with your parents. We ask the difficult questions so you don't have to:

- ☑ To see pay stubs, tax returns, and letters of explanation for special circumstances
- ☑ Assets that appear extravagant
- ☑ How parents will pay the rest of the tuition bill, should they receive aid.
