

HOW SAFE IS YOUR CAMPUS?

The Problem

School security and student safety has become a major concern of families as well as school administration. Most schools rely solely on their own personnel or local law enforcement to identify areas of weakness and vulnerability that can lead to building breaches and attacks. Even schools that have a Security Officer or School Resource Officer (SRO) on staff benefit from the expertise of an external safety evaluation from a certified school protection specialist.

The Solution

Our National School Threat Assessment begins first with a school-wide assessment conducted by EBI and its partner organization, the [SchoolRIGHTGroup](#). This provides the detail a school needs to understand their own strengths, weaknesses, opportunities, and threats. The resulting data and recommendations are presented in a written Executive Summary and follow-up video consultation.

The Training

Schools are encouraged to facilitate follow-up EBI Security Training, a program based on protocol from the United States Secret Service and the Diplomatic Security Service which includes training for teaching and non-teaching staff, as well as volunteers. Schools that complete the full assessment and training are properly prepared to operate a safe and sound school environment.

Assessment review and training is provided by the EBI Team, under the direction of [Bobby Brasher](#), Director of School Safety and Student Security for The Brook Hill School in Texas, an international security consultant for the [GLOBAL School Consulting Group](#), Co-founder of Christian Defense & Safety Solutions, trainer, and speaker with multiple security certifications.

THE RISK

Providing inadequate, little, or no assessment and training...

- Increases school liability.
- Significantly diminishes staff preparedness to react properly to threats.
- Puts everyone at risk to potential life-threatening issues.

THE ASSESSMENT

Ratings in Four Key Domains

- Procedural
- Property Perimeter
- Building Security
- Emergency Notifications

Survey participants: staff and key organization volunteers.

THE GOAL

The Threat Assessment...

- Increases safety awareness for everyone.
- Provides a strong security footprint for the campus.
- Raises the confidence level in parents, interested families, and financial investors.
